## Fund Description

This Fund invests in a nationally diversified portfolio of municipal bonds of varying credit quality. Municipal bonds are debt securities issued by city, county or state governments to finance projects related to schools, airports, roads, bridges, sewers, hospitals, senior living facilities, etc. Municipal bonds are generally exempt from federal income taxes. The Fund holds at least 50% of its assets in bonds that are unrated or are rated BBB or below, but also has an allocation to higher quality investment-grade bonds. It expects to invest primarily in revenue bonds that are repaid from revenues generated by a project and may also invest in general obligation bonds backed by the issuer's taxing authority. The Fund may also invest in "tobacco bonds" issued by states to securitize their settlements with tobacco companies. Higher yielding municipal bonds typically have more credit risk and longer duration than investment grade bonds.

## Investment Strategy/Process

The portfolio management team is responsible for portfolio construction and risk management and seeks to add value through security selection and active management while building a well-diversified portfolio with a prudent level of risk relative to the non-investment grade peer group of funds. The team uses fundamental and other investment research techniques to determine which securities to buy and sell. Through rigorous credit research, the analysts seek to identify municipal bonds (both investment grade and below investment grade) that are issued by entities with strong fundamentals and sufficient cash flows to meet their principal and interest obligations. The Fund's holdings may be concentrated in certain sectors including health care and education. The Fund may utilize derivatives to manage duration, or interest rate risk.

All data represents past performance. Past performance does not guarantee future results. The investment return and principal value of the investment will fluctuate so that an investor's shares, when redeemed, may be worth more or less than the original cost. Current performance may be lower or higher than the performance data quoted. Call 800-847-4836 or visit [thriventfunds.com](http://thriventfunds.com) for performance results current to the most recent month-end.

Performance shown assumes the reinvestment of all dividends and capital gains. Other share class performance may vary due to differences in fees and expenses.

\*The Adviser has contractually agreed, for a period of one year from the date of the most recent prospectus, to waive certain fees and/or reimburse certain expenses associated with the Fund. If not waived, returns would have been lower. Refer to the Fees & Expenses table in the prospectus.

\*\*The Morningstar average represents the average total return annualized when greater than one year for all reported funds in the category. Morningstar averages do not include sales charges/fees. If included, returns would have been lower.

**Risks:** Municipal bonds may be affected by political or economic conditions at the state, regional or federal level. Debt securities are subject to risks such as declining prices during periods of rising interest rates and credit risk, or the risk that an issuer may not pay its debt. High yield securities are subject to increased credit risk as well as liquidity risk. The use of futures contracts involves additional risks such as a loss in value in the underlying instrument, which could decrease the Fund's value. The Adviser's assessment of investments may prove incorrect, resulting in losses or poor performance. When bond inventories are low in relation to the market size, there is the potential for decreased liquidity and increased price volatility. The Fund's value is influenced by the performance of the broader market. In unusual circumstances, the Fund could experience a loss when selling portfolio securities to meet redemption requests for a variety of reasons. Changes in federal income tax laws or rates may affect both the net asset value of the Fund and the taxable equivalent interest generated from securities in the Fund. Some issues may be subject to state and local taxes and/or alternative minimum taxes (AMT). These and other risks are described in the prospectus.
