Inception Date 10/29/1999 **Total Fund Assets** \$1.0 billion **Ticker** TLVIX

Fund Description

Thrivent Large Cap Value Fund looks to provide investors with consistent, competitive performance through favorable stock selection while monitoring risk. The Fund typically invests in large company “value” stocks. Value stocks are companies that trade at a lower price compared to the market average, as measured by valuation ratios that compare the stock’s price to the company’s earnings and growth trends. Large companies are generally considered to be more stable, but may not have the fast growth potential of smaller companies or the ability to respond as quickly to competitive challenges and changing market conditions.

Investment Strategy/Process

The portfolio management team seeks to add value through stock selection and active management, and monitors risk in an effort to build a well-diversified portfolio. The team also seeks to invest in stocks that they believe are undervalued, which may be because the company is out of favor or has been temporarily overlooked. The team uses fundamental, quantitative and technical investment research techniques in an effort to identify high-quality businesses that are trading at attractive prices, but have good prospects for long-term capital appreciation. Catalysts for improvement may include factors such as improving economic conditions, new industry developments, or a company’s plan to improve the business.

Growth of \$10,000 and Calendar Year Performance (%)

Investment Objective

Thrivent Large Cap Value Fund seeks to achieve long-term growth of capital.

Who Should Consider Investing?

The Fund may be suitable for investors who:

- Seek long-term growth.
- Have a long-term investment time horizon and a moderately aggressive risk tolerance.
- Are able to withstand a moderately high level of risk and volatility in pursuit of moderately high long-term returns.

Minimum Investment

Initial (non-retirement): \$2,000
Initial (IRA or tax-deferred): \$1,000
Subsequent: \$50

Expense Ratio

Gross: 0.53%
Net: 0.53%

Benchmark(s)

Indexes are unmanaged and do not reflect the fees and expenses associated with active management. Investments cannot be made directly into an index.

- **S&P 500® Value Index** is a market-capitalization-weighted index developed by Standard and Poor’s consisting of those stocks within the S&P 500® Index that exhibit strong value characteristics.

Fund Management & Experience

Kurt J. Lauber, CFA
Fund Start: 2013
Industry Start: 1992

Risks: The Fund primarily invests in securities of large companies, which may be unable to respond quickly to new competitive challenges and may not be able to attain a high growth rate. The value of the Fund is influenced by factors impacting the overall market, certain asset classes, certain investment styles, and specific issuers. The Fund may incur losses due to investments that do not perform as anticipated by the investment adviser. Foreign investments involve additional risks, including currency fluctuations, liquidity, political, economic and market instability, and different legal and accounting standards.

All data represents past performance and assumes the reinvestment of dividends and capital gains. Past performance does not guarantee future results. The investment return and principal value of the investment will fluctuate so that an investor’s shares, when redeemed, may be worth more or less than the original cost. Current performance may be lower or higher than the performance data quoted. Visit ThriventFunds.com or call 800-847-4836 for performance results current to the most recent month-end.

¹Source: Lipper LANA. The Lipper median represents the median annualized total return for all reported funds in the classification. Lipper medians do not include sales charges or fees. If included, returns would have been lower.
